

HON

pendant lamp

filumen®

Description

HON is a honey-coloured glass lamp with a characteristic hexagonal shape. The thick-walled, mouth-blown glass is sanded and coloured. Matting and coloring are reminiscent of wax. Hung as a group, this light is particularly suitable for high ceilings. HON accentuates with shape and color - decorative lighting ideal for staircases, foyers and lounge areas.

Dimensions (dxh)

Ø 9 x 33 cm

Material
